Are you ready to elevate your design practice with cutting-edge biodesign principles and tools?

Architects, engineers and others with a professional interest

- You are hereby invited to Building Based on Bio Based Workshop

Professionalizing Biodesign- Introduction to the Bio Design Tool Kit

Date & Venue: August 21st 2025 in Markedshallen, Fejøgade 18, 4800 Nykøbing Falster.

Registration [HERE](#) or bioguldborgsund.dk/hampenshus. Questions/contact mej@guldborgsund.dk

What to expect: Join us for an inspiring one-day workshop designed to professionalize your approach to bio-based innovation, orchestrated by academic and industry expert Bert Vuylsteke, Assistant and PhD Candidate at Ghent University.

Value to take home:

- An eye-opening shift in design thinking that you can never “unsee”
- A new tool to add to your arsenal of design methodologies
- Firsthand experience with this new, practically applicable toolkit
- New Reflections, insights and possibly opportunities gained from your very own prior projects

PROGRAM

8.30	Arrival and coffee	12.00	Lunch Break
9.00	Welcome & Introduction of the hosting project, Building Based on Bio Based/Guldborgsund Municipality Tanja Beckmann Sørensen /Markedshallen Mette Jørgensen /Bioeconomy Hotspot Round the table presentation of all participants. Workshop introduction /orchestrator, Bert Vuylsteke	13.00	Biodesign in your professional activities - Get to action. Each participant chooses 1 project of his/her own that had something to do with biobased/ biodegradation and re-verse-engineers his/her own trajectory using the toolkit. Reflects on the steps taken, or steps that you skipped or overlooked. Ultimately, identify new bio design opportunities from these prior biodesign projects.
10.00	Reflection-Questionnaire: Providing participants with a bio design profile – a start status. Coffee Break	15.00	Coffee Break
10.30	Presentation of Hampens Hus - Bio Design thoughts from the process. (20 min.) Jonas Aarsø, architect Nikolova/Aarsø, designer of Hampens Hus. - Bio Design buildability. (20 min) Jakob Koch, technical director, Adserballe & Knudsen, main contractor of Hampens Hus.	15.15	Reflection-Questionnaire: Providing participants with a new bio design profile – a end status.
11.15	Deep dive into Bio Design. Interactive and dynamic lecture on Biodesign and the Biodesign Toolkit with demonstrators. /Bert Vuylsteke	15.30	Short presentation (no slideshow needed) by the participants of what they learned from reverse-engineering their design trajectories with the toolkit.
		16.30	Wrap up & Optional, relaxing visit to the inspiring Hampens Hus building site (Merkurs Plads 1, Nykøbing Falster). Networking over refreshments.
